

# Dial-Up: Is there a list of every California Dial-Up number?

NOTE: Before you use any dial-up number for Internet access, we recommend that you contact your local telephone service provider to verify if the number in question would be a toll-charge call for you.

You can reach your local operator by dialing "0". Let the operator know the telephone number that you are dialing from and the number that you are dialing to. The operator will then verify whether or not the number is a toll-charge call for you.

It is the customer's responsibility to verify this information. We are not responsible for any charges you may incur.
